[Learning Language and Loving It](#)

Learning Language and Loving It®, created by the Hanen Centre, is a research-based program designed to provide early childhood educators with practical strategies for helping all children in the classroom build language and social skills. Participants will learn strategies to promote language development, become attuned to the child's interests, promote positive interactions in the classroom, and foster emergent literacy skills. A Hanen-certified facilitator will lead a 4-day, 20 hour program for early childhood educators

who work with infants, toddlers, and/or preschoolers. This program also offers 2 CEUs.
