### President's Message

Dear Friends,

The Children's Movement of Florida is a campaign taking root in our state. Led by David Lawrence, Jr., and other prominent leaders in Florida, this non-partisan, citizen-led movement is dedicated to "educate political, business and civic leaders - and all parents of the state - about the urgent need to significantly improve upon the inadequate manner in which Florida treats its children. The mission is not about raising taxes, but rather about raising children. Florida's children deserve to be our first priority when deciding how the state's resources are spent."

With so many opportunities to do better for children, the Children's Movement of Florida gives us hope that every Florida child will one day have an equal opportunity for success.

For additional information, please visit <http://childrensmovementflorida.org/>. Thank you.

As always, I remain at your service.

Sincerely,

Evelio C. Torres  
President & CEO  
Early Learning Coalition of Miami-Dade/Monroe

## Important Announcements

### House Subcommittee Passes Bill Granting Sizable Increases to CCDBG and Head Start

The House Appropriations Subcommittee on Labor, Health and Human Services and Education has agreed that early care and education should be given priority when it comes to federal budget increases. While the full amounts proposed by the Obama administration were not granted, the Subcommittee still passed a bill on July 15<sup>th</sup> providing a \$700 million increase for the Child Care and Development Block Grant (CCDBG) and an \$866 million increase for Head Start. Next steps include the passing of the bill by the House Appropriations Committee and the Senate working on their own version.

### New Law Effective August 1st Requires Cleared Background Screening for Jobs in Child Care

Effective August 1, 2010, HB 7069 will require background screening of job applicants, employees and volunteers who come in contact with children, the developmentally disabled and vulnerable adults.

Under this new law employers will not be permitted to hire for these positions until the applicants are cleared by Level 2 background screening. This screening uses one's fingerprints to search through criminal records in both Florida and the United States.

Providers are encouraged to begin immediate preparations in their centers for HB 7069's implementation. Additionally, while the new law requires all fingerprints to be electronically processed by 2012, DCF hopes to bring this alternative to workers by August 1<sup>st</sup> as well, thus speeding up turnaround time and lowering error and rejection rates.

For more details on HB 7069 and to read Secretary Sheldon's July 9<sup>th</sup> correspondence regarding the new law, please visit [www.elcmdm.org](http://www.elcmdm.org).

U.S. Citizenship and Immigration Services (USCIS) is hosting an art project for children ages 5- to 12-years-old. Kids are asked to draw a picture showing why they think people coming to the U.S. from all over the world to become Americans makes our country great. USCIS will display artwork submissions in their offices nationwide. All entries must be postmarked by August 16, 2010. For artwork requirements, project eligibility and rules, and entry instructions, please visit [www.elcmdm.org](http://www.elcmdm.org) and click on the link for the USCIS artwork flyer.

### Receive Valuable Feedback from Experts on your Center's Business Plan and Practices

The Early Learning Coalition has begun the strategic planning process. This process will include developing a multi-year strategic plan that includes investment strategies. Investment strategies include slot/child care expenditures, provider reimbursement rates, quality and Gold Seal expenditures and other services funded by the ELC. In an effort to assist the Early Learning Coalition's board of directors in gaining a better understanding of the financial challenges faced by child care providers, the ELC is encouraging providers to volunteer their centers for a review of their business plans and practices by a team of volunteer private sector financial experts. These experts will evaluate your books and business model and provide valuable feedback to the board of directors as they prepare to make some very tough budgetary and programmatic decisions. Providers will not be identified by name on the report to the board. To be considered for this review or to find out more, please submit your center's name and contact information to Tabatha Cullen, Sr. Director of Communications, at [tcullen@elcmdm.org](mailto:tcullen@elcmdm.org).

#### **Team Member Spotlight**

This month, the spotlight shines on another valued team member and the important work she accomplishes in bringing quality early childhood education to our community. In this issue, it is our pleasure to highlight Michele Wenleder, Contracts Manager.

Michele Wenleder began her tenure as a contracts manager at the Coalition in late September of 2009. She assists in writing and negotiating the Coalition's program and administrative contracts. Michele also manages contracts throughout their term to ensure that the ELC's contractors comply with all reporting requirements and properly utilize Coalition funds.

"After a long contract negotiation/writing process, it is very rewarding to see the words on a page come to life. Also, managing a contract throughout its term ensures that the state and federal funds that we receive are being well spent," Michele says.

While Michele is often busy with paperwork and contract details, it is the Coalition's mission that ultimately drives her, "My colleagues and I are incredibly passionate about our work. Together we work very hard to craft a contract that will provide high-quality services to the children in our community."

Previously, Michele was an associate at a Miami-based law firm where she practiced real estate and commercial litigation. Prior to that she worked at the New York City Council, the legislative body for the City of New York, where she wrote public safety legislation and prepared elected officials for public hearings.

Away from work, Michele enjoys practicing yoga, traveling, going to the beach, and spending time with her family and friends.

### Monroe County Pre-K Team Attends the Pyramid Model Implementation Academy

The Monroe County Pre-K Team recently attended the Pyramid Model Implementation Academy in Tampa. Sponsored by USF's Technical Assistance Center on Social Emotional Intervention (TACSEI), this model provides the framework for evidence-based practices for promoting young children's social-emotional competence and preventing and addressing challenging behavior. The Monroe Pre-K Team represents a partnership between the ELC, Wesley House, Monroe County School District, Head Start and Child Find-FDLRS. ### The ELC Sponsors Free Creative Curriculum Trainings in the Keys

ELC sponsored a series of free Creative Curriculum Trainings in the Keys during the month of June. Two infant/toddler sessions (in English and Spanish) and one preschool session (in English) were provided. Participants received a Creative Curriculum textbook for use in their classrooms as well as additional training materials. The trainings provided by Teaching Strategies focused on best practices in Creative Curriculum implementation. Providers were reminded that the use of an ELC- approved developmentally appropriate curriculum will be monitored during the 2010-2011 program year. Below is a photo from one of the training sessions.

## Quality Counts

The team of technical assistance specialists at the University of Miami Mailman Center for Child Development provides comprehensive mentoring, coaching and career counseling to family child care (FCC) home providers in all geographic areas of Miami-Dade County in the Quality Counts program. With funding from the Early Learning Coalition of Miami-Dade/Monroe, The United Way Center for Excellence in Early Education and the Children's Forum, the UM team has provided additional support for family child care providers obtaining voluntary national accreditation from the National Association of Family Child Care (NAFCC) by engaging in training and personalized on-site technical assistance. Out team members consistently go "above and beyond" their job descriptions in their service to providers.

The Mailman Center's goal is to assist family child care providers achieve the goals that they envision for themselves. By creating caring relationships, we are able to motivate each provider to reach objectives they did not think possible. Leadership skills are nurtured by participation in the Council of Presidents monthly meetings. Guest speakers are invited to address the presidents of the four local FCC associations and information is then delivered to all members.

Evidence of the growth of the FCC providers engaged in the Quality Rating Improvement System is seen every day. The improvement in environments, child and parent engagement, administration of their business, and their own education and self-confidence is reflected in more than improved scores on a rating sheet. It is visible in their faces and their demeanor.
